ABOUT US:

URVA Tensile is a professional tensile structures manufacturing company which designs and installs some of the world's most inspiring tensile structures in Pakistan. We develop our tensile fabric structures by using an assortment of highly engineered PVC coated Polyester and PVDF membrane fabrics. Over the years, we have undergone technological innovation and carried out a wide spectrum of services in fabrication and erection of specialized steel works at competitive prices without compromising on quality. Urva Tensile has the distribution of European Pvc Coated fabric, manufactured by well reputed SAULEDA company situated in Barcelona, Spain.

VISION

Our vision is to improve the functionality and quality of our services by constantly updating and training our crew in the latest techniques, processes and safety standards to build on our already proven work record. Among our focuses are long term environmental damage control, easy maintenance and fabrication and erection of resilient tensile structures.

MISSION

Our mission is to work collaboratively with our clients to give them the best value for money solution which achieves their projects' vision. Through our pioneering spirit and culture of limitless possibilities, our experienced team will continue to inspire and provide innovative fabric structures that solve design challenges, whilst being locally sourced, sustainable and aesthetically pleasing.

WHAT ARE TENSILE STRUCTURES ?

Tensile structure is the term usually used to refer to the construction of roofs using a membrane held in place on steel cables. Their main characteristics are the way in which they work under stress tensile, their ease of pre-fabrication, their ability to cover large spans, and their malleability. This structural system calls for a small amount of material thanks to the use of thin PVC coated polyester fabrics, which when stretched using steel cables, create surfaces capable of overcoming the forces imposed upon them.

Characteristics of PVC Membrane Fabric

- Excellent Durability and Long Lasting
- Outstanding Light Transmittance
- Lightweight Structural Requirements
- Low Maintenance
- Signature Design Aesthetics
- Cost Efficient
- Waterproof, Heat Repellent and Fire Retardant
- Better substitute of Fiber Sheet and Canvas Tarpaulin

OUR CLIENTS

- Ferozsons Laboratories Pvt Ltd
- Pakistan Alco
- Lawyers and Lawyers International
- Chenab Club, Faisalabad
- Rawalpindi Cantonment Board
- Groves Interior
- J.B. Saeed, DHA Lahore
- Imperial Panel Industries
- Haban Group
- Haier Pakistan
- Air Weapon Complex
- PAC KAMRA
- Shell Gambat Roari
- Blue Horizon Club, Islamabad Askari 14
- C&W Punjab Govt.
- United Textiles, Faisalabad
- Thermopole Pvt Ltd, Sundar
- Zubair Feeds Pvt Ltd, Pakpattan
- Hamid Textile Mills Limited, Pattoki

OUR CLIENTS

A true partnership is a two way street ideas and information flow openly and regularly, based on a foundation of mutual trust and respect for one another's expertise and our clients embrace this philosophy.

The best and most productive relationships are synergistic and goal oriented, and along term relationship has the value add of deep rooted industry and company knowledge and relationships.

Our client list speaks for itself. Since our earliest days, we've represented everything from start ups to Fortune 500 companies with that same partnership approach and dedication at the core of every engagement. We've been devoting our hearts and minds to our clients, achieving great successes and building lasting relationships.
